Announcement

Owing to the unsettled condition of the markets at the beginning of the year, in justice to our customers as well as ourselves, we deemed it advisable not to issue a catalogue until conditions became more normal, and for this reason we have sent out Price Lists from time to time, advancing our prices each time just sufficient to cover the additional cost of production. Although the price of leather has not dropped, the market seems steadier and we have been fortunate in booking sufficient for this year's business at a price which enables us to slightly reduce our prices on some lines and still maintain the reputation of supplying a line of goods second to none.

We have for this reason prepared this Supplement covering our principal lines of Team Harness and Collars to which we have added a few styles not shown in our Catalogue. Very often a customer prefers a different collar from that quoted with a harness and to save confusion we have listed all harness less collars.

On pages 7 and 8 we show a line of Team Collars manufactured in our own plant, which are without doubt the best that first-class material, skilled mechanics and modern equipment can produce.

These are quoted at the same prices as though listed with the harness and whether you buy Collars with or without a Harness you get them at regular Mail Order Prices.

Our first year's experience in the Mail Order business has convinced us that the farmers of Western Canada appreciate the fact that we save them considerable money by our system of selling direct. We have spared no pains or expense in endeavoring to give efficient service and our efforts have been liberally rewarded. We are the only firm west of Winnipeg selling direct to the farmer at wholesale factory prices.

We endeavor to put the best material, workmanship and finish in every article we turn out. We could make cheaper goods, but we prefer not to. We could make more attractive Harness, but the quality might suffer. Our chief object is to give the best possible value at the minimum price.

Calgary

RILEY & McCORMICK, Limited

Important

We are now working on a General Catalogue to which we are adding many new lines not shown in our first Mail Order Catalogue, but as it takes considerable time to get this out, we will ask our customers to still use the old Catalogue, but for reference only, as the prices shown therin are now cancelled, and our price list No. 3 applying to the old Catalogue shows today's prices on all Harness, Saddles, Harness Parts and Hardware not illustrated here. Freight prepaid to your nearest station.

SPECIALS FOR SPRING 1917
